NEXT-MONTH OUTLOOK

Trend estimate for June 2026

GCI 35.7 95% range 26.0-45.5	NDVI 0.248 95% range 0.134-0.363	Rainfall 1.2 95% range 0.0-13.1	Temperature 34.3 95% range 30.2-38.4	MSDI 0.022 95% range 0.006-0.038
---	---	--	---	---

Ranges come from a linear trend fitted only to prior observations for the forecast month; they express statistical uncertainty, not a weather forecast.

Recommended planning checks

- 1

Field-check grazing and water access in the 1 poor or very poor wards.
- 2

Rainfall is below the long-term value for this month; verify borehole and animal-watering-point reliability.
- 3

No resources are registered for this county yet; begin by mapping priority water and restoration assets.

SCREENING BRIEF

Confirm resource access, ownership, condition and local authority guidance before deployment.
